

DISPLAY REPAIR SOLUTIONS

by the Industry Leader

Precision Display Repairs (PDR)

Formerly Momentum Services Corp.

PDR is an FAA approved, Part 145 Repair Station for Avionics Display and Glass sub-assemblies supporting Military and Commercial Cockpit Displays.

PDR designs its test and repair equipment to support key LCD Glass components on all Flat Panel Display models and sizes. Their unique "R5" facility automation software, provides status reporting, repair analysis and parts traceability for every display serial number processed.
